

CURVE – Powerful bicycle lights for the urban cyclist

- **Rechargeable with USB**
- **Super bright**
- **Run-time of up to 35 hours**
- **Easy attach and detach**

Designed to be the perfect light for the urban cyclist for whom style is as important as function. Equipped with super strong LEDs and a huge battery for long and powerful runtime.

The clasp doubles as the on and off button. A long press turns it on or off, and a fast click changes between the different modes available. Convenient to attach and detach thanks to the elastic silicone band.
